### StoryMap Menu Guide:

► Login to view maps created in other sessions or save your 'works in progress' for up to three days or to use one of your already purchased maps as the template for a new one! (You can build maps without logging in, but you cannot save them or view maps you built in other sessions.)

► Create/Manage creates new maps, lets you change the name and/or title of your map, make copies, or remove unwanted maps altogether.

*And once you have created a map,*

► There are several different shapes possible for the background of your map. Choose the one you like best, but you can always change it by coming back to 'Choose Background'

► Preview shows you what your map will look like without the placeholders.

► Map Builder, the workhorse of this site, displays the interactive 'builder' map for identifying the placement for images and text.

► Purchase/Download gives you access to high-resolution versions of your creations. Color versions come in both 8.5 x 11 and poster size (25 x 19) for a \$10.00 fee. Black and white versions are free. Email a finished map to a friend or download it for printing & framing.

► Use the Help! map to guide you through the process - it is always available!

► Spice has suggestions about what you can do with your maps once you have created them, Hints/Tips suggests questions whose answers should give you ideas of what to include.

► **Builder Home** brings you back here!
